👤 PROFILE

I am a highly motivated individual with a passion for developing robust and efficient software solutions. With a strong foundation in programming concepts and experience in multiple programming languages, I am able to quickly adapt to new technologies and frameworks. In addition to my technical skills, I have experience working in an Agile development environment, collaborating with cross-functional teams, and delivering high-quality software on time. I am a quick learner and constantly seek out new challenges to improve my skills and contribute to the success of the team.

📁 EMPLOYMENT HISTORY

Associate Application Developer at IBM

March 2023 — Present

- Mentoring newer apprentices to help them learn software development skills and tools.

Application Developer Apprentice at IBM

March 2022 — March 2023

- Acted as a scrum master to ensure the team performs in an agile methodology.
- Learn software development skills and tools to create front-end and back-end demo applications.
- Collaborate with other apprentices to help them close skill gaps.
- Learn SDLC, CI/CD, and TDD to successfully graduate from the apprenticeship program.
- Presented what I learned and the status of the program to the leadership.
